1. Claims 1-7 are allowable. The restriction requirement species, as set forth in the Office action mailed on 11/24/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.**

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim(s) presented in a continuation or divisional application include all the limitations of a claim that is allowable in the present application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). Examiner's Statement of Reason for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record teaches various piezoelectric transducers thereon, for example U.S. patent number 5,463,185. However, the prior art of record fails to show claim 1, a piezoelectric transducer for producing electric signals upon detection of vibrations of strings of a stringed instrument, comprising: a thin metal plate that is adhered to at least an exterior of an upper surface of the shield layer and that is composed of a prescribed metal, which is selected from among copper, gold, and platinum, or a prescribed alloy mainly composed of one of copper, gold, and platinum and combined with all the limitation of claim 1; claim 4, A bridge for a stringed instrument equipped with a piezoelectric transducer for producing electric signals upon detection of vibrations of strings, said bridge comprising: a thin metal plate that is adhered to at least an exterior of an upper surface of the shield layer and that is composed of a prescribed metal, which is selected from among copper, gold, and platinum, or a prescribed alloy mainly composed of one of copper, gold, and platinum and combined with all the limitation of claim 4; and claim 6, a thin metal plate that is adhered to at least an exterior of an upper surface of the shield

layer and that is composed of a prescribed metal, which is selected from among copper, gold, and platinum, or a prescribed alloy mainly composed of one of copper, gold, and platinum and combined with all the limitation of claim 6.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference U.S. 5,463,185 teaches a musical instrument piezoelectric transducer.
